AI4ALL *Corporate Partnerships*

Working
together to
shape the future
of artificial
intelligence by
empowering
the people and
ideas that will
define AI for
generations to
come.

“

“AI IS A TOOL, AND ITS VALUES
ARE HUMAN VALUES.”

DR. FEI-FEI LI

CO-FOUNDER, AI4ALL

A LETTER FROM BO

Dear Partners and Friends,

Artificial intelligence is reshaping our world.

The decisions we make today about who builds AI, whose perspectives shape it, and the values that guide it will influence our economy, our communities, and our society for generations to come.

This moment calls for leadership.

The future of artificial intelligence will not be determined by technology alone. It will be shaped by the people, institutions, and companies that choose to invest in responsible innovation, expand opportunity, and ensure AI serves humanity.

For nearly a decade, AI4ALL has been at the forefront of preparing future AI leaders while advancing the broader conversation around responsible, human-centered artificial intelligence. Today, we work across education, thought leadership, workforce development, and strategic partnerships to help shape an AI ecosystem that is innovative, responsible, and reflective of our shared humanity.

Companies have an unprecedented opportunity to help shape that future.

By partnering with AI4ALL, companies invest in more than programs. They invest in the researchers, entrepreneurs, engineers, policymakers, educators, and leaders who will influence how artificial intelligence transforms society. They help advance responsible AI, expand opportunity, strengthen the future AI workforce, and accelerate the ideas and partnerships that will define the next generation of innovation.

This prospectus outlines the many ways companies can partner with AI4ALL—from employee engagement and executive education to strategic philanthropy, thought leadership, and transformational investments that create lasting impact.

The companies that lead in the AI era will not simply be those that build the most powerful technologies.

They will be the companies that help shape an AI future worthy of that technology.

Thank you for considering a partnership with AI4ALL. We look forward to building that future together.

With gratitude,

Bo Young Lee
Chief Executive Officer
AI4ALL

The Question Is Not Whether AI Will Shape Our Future. It Is Who Will Shape AI.

Artificial intelligence is advancing at an extraordinary pace.

Every day, AI is transforming how people work, learn, create, communicate, and make decisions. Its influence now extends across every industry, every community, and nearly every aspect of modern life.

The question is not whether AI will shape our future.

It is who will shape AI.

The people who design, govern, research, deploy, and lead AI today will determine how these technologies transform our economy, our institutions, and our daily lives for generations to come. Their decisions, perspectives, and values will shape whether AI expands opportunity, accelerates innovation, and serves the public good—or leaves people behind.

Leadership in AI extends beyond technological innovation. It also means investing in the people, ideas, and partnerships that will ensure AI is developed responsibly and reflects the humanity of the people it is meant to serve.

This is a defining moment.

Corporations have an unprecedented opportunity to help expand access to AI education, cultivate the next generation of AI leaders, advance responsible innovation, and shape a future where artificial intelligence benefits everyone.

The future of AI will be built by the people—and the corporations—who choose to invest in it today.

“

“The future of AI will not be written in code. It will be written in classrooms, workforce programs, hiring systems, public budgets, and the values we embed in our institutions.”

Bo Young Lee

CEO of AI4ALL

Partnership Opportunities

AI4ALL offers a wide range of partnership opportunities for mission-aligned companies committed to helping build a more ethical and responsible future for artificial intelligence. Our partnerships are designed to create meaningful value for both our partners and the students, alumni, and communities we serve, while advancing a shared vision for AI that expands opportunity, drives innovation, and benefits society.

Whether a company is seeking to strengthen its social impact strategy, engage employees in meaningful volunteer experiences, elevate its thought leadership, connect with emerging AI talent, or make a transformational investment in the future of artificial intelligence, AI4ALL offers opportunities to create lasting impact.

Our partnerships are built on collaboration, ensuring that every engagement supports both the partner's strategic objectives and AI4ALL's mission to cultivate the people, ideas, and leadership that will shape the future of artificial intelligence.

From brand visibility and employee engagement to talent pipeline development, executive education, and thought leadership, there are many ways for companies to engage with AI4ALL at every partnership level.

All partnerships can be customized to some extent to align with a partner's goals, priorities, and areas of interest while maintaining meaningful mission alignment and impact.

FRIEND

\$10,000 Contribution

For companies seeking an introductory sponsorship:

- Logo placement on select AI4ALL materials and/or website recognition
- Special consideration for engagement opportunities
 - i.e., event invitations, speaking opportunities, etc.

COMMUNITY PARTNER

\$25,000 Partnership

Community Partners receive brand visibility and engagement opportunities with AI4ALL students, alumni, and community members:

Brand Visibility

- Logo placement on ai-4-all.org

Employee Engagement

- A 1-hour virtual Lunch & Learn session for partner's staff

Community Engagement

- Opportunity to host up to 4 co-branded webinars annually for AI4ALL students and alumni
 - Partner develops and leads the session
 - AI4ALL promotes the event and drives attendance

Volunteer Opportunities

- Examples include resume reviews, mentorship, speaker panels, and other student support activities

Event Access

- Partner-only invitations to participate in webinars, panels, and roundtables

INNOVATION PARTNER

\$50,000 Partnership

Innovation Partners receive all Community Partner benefits, *plus* enhanced visibility, talent access, and priority engagement opportunities:

Expanded Brand Visibility

- Dedicated social media post
- Logo placement in email newsletters

Early Access to Thought Leadership Content

- Early access to white papers developed by AI4ALL's Future of AI Education Council before public release

AI4ALL Alumni Engagement

- Alumni portal account
 - Opportunities to share internships, job openings, events, and career opportunities directly with AI4ALL alumni

Priority Event Access

- Priority partner-only opportunities to participate in:
 - Webinars
 - Panels
 - Roundtables
 - Salons
 - Private dinners

Innovation Partners receive priority consideration over lower-tier partners for select opportunities.

LEADERSHIP PARTNER

\$100,000 Partnership

Leadership Partners receive all lower-tier benefits, *plus* premier visibility opportunities and direct access to AI4ALL's tech talent pipeline:

Public Relations

- Press release
- Recognition on AI4ALL's website, with link

Access to Talent Network

- AI4ALL's resume books featuring recent graduates
- Opportunity to participate in AI4ALL's annual virtual symposium
 - Connect directly with students
 - Share mentorship, internship, and career opportunities

Additional Social Media

- Such as an executive feature

Documentary Benefits

- Early screening of AI4ALL's upcoming documentary, [DEFINE]: Our AI Futures
- Invitation to the documentary premiere and reception with VIP seating for up to 5

Leadership Partners also receive priority consideration over lower-tier partners for select opportunities.

VISIONARY PARTNER

\$250,000 Partnership

Visionary Partners receive all lower-tier benefits, *plus* custom executive education and professional development opportunities, as well as elevated program recognition:

Executive Training

- A custom 1-hour virtual training session for company leadership focused on:
 - Responsible and ethical AI
 - AI policy and governance

Personnel Training

- A custom 1-hour virtual training session for all personnel focused on:
 - AI implementation
 - Critical AI literacy
 - AI best practices

Future of AI Salon

- Opportunity to co-host an intimate gathering with public and private sector AI leaders and academics, planned by AI4ALL

Naming Opportunity

- One Ignite or Elevate program class will be named after the partner company during the partnership year
 - i.e., Disney's 2026 AI4ALL Ignite Class

Visionary Partners also receive priority consideration over lower-tier partners for all AI4ALL events and other select opportunities.

CHAMPION PARTNER

\$500,000 Partnership

Champion Partners receive all lower-tier benefits, *plus* top-tier visibility and recognition throughout the AI4ALL ecosystem:

Naming Opportunity

- Recognition across an entire AI4ALL program cohort (rather than a single class)
 - i.e., Disney's Summer 2026 Elevate Program

Expanded Visibility

- Additional social media highlighting the company as a leading champion of ethical and responsible AI, tech workforce development, or other mission-aligned phrasing of the company's choice
- Logo placement on external-facing materials across all AI4ALL programs

Deeper Collaboration with AI4ALL

- Strategic responsible AI advising from AI4ALL leadership
- Tailored engagements
 - i.e., a fully custom co-hosted virtual convening

Champion Partners receive first-pick access to promotional opportunities, speaking engagements, thought leadership opportunities, and special AI4ALL initiatives.

FUTURE OF AI BUILDER

\$1,000,000+ Partnership

Future of AI Builders are AI4ALL's most transformational partners, making bold investments that help shape not only the future of AI education, but the future of artificial intelligence itself.

Designed for companies committed to making catalytic investments in ethical innovation, responsible AI, and equitable opportunity, these partnerships may support new programs, named scholarship funds, groundbreaking thought leadership initiatives, and a variety of other ambitious collaborations that help shape the future of AI.

Future of AI Builders receive all benefits included in each lower partnership tier, *plus* the opportunity to co-create bold, fully customized initiatives with AI4ALL that deliver transformational, long-term impact.

Example Opportunities

- Launching a new AI4ALL program
- Creating a scholarship fund
- A fully custom AI training program for the partner's entire company

Every Future of AI Builder partnership is uniquely designed to align with the partner's vision, priorities, and long-term objectives.

Add-On Consulting Services

In addition to partnership opportunities, AI4ALL offers consulting services.

As AI continues to reshape industries, workforces, and society at large, organizations are increasingly seeking guidance on how to build AI-ready cultures, develop inclusive talent pipelines, implement responsible AI practices, and prepare employees and leaders for long-term transformation.

AI4ALL brings a unique perspective at the intersection of AI education, workforce development, responsible innovation, and inclusive leadership.

AI4ALL Consulting is available as a standalone fee-for-service engagement or may be added to any AI4ALL partnership package, with partners receiving discounted rates on all AI4ALL consulting offerings.

Responsible AI Strategy & Governance

We help clients build the structures, policies, operational systems, and accountability frameworks required for responsible AI adoption.

This work focuses on strategizing, policy and governance advising, organizational alignment, and long-term implementation planning.

Responsible AI Education & Workforce Training

We help clients ensure workforce readiness, AI literacy, and responsible AI usage behaviors across teams and operational environments.

This work focuses on critical AI literacy, workforce capability, including organization-wide learning and position-specific training, leadership preparedness, and practical, day-to-day adoption.

MIT TECHNOLOGY REVIEW

Join Us

By partnering with AI4ALL, companies become part of a growing movement advancing responsible AI, expanding opportunity, and preparing the leaders who will shape one of the most consequential technologies of our time.

Our partners do more than donate—they invest in the future researchers, entrepreneurs, policymakers, educators, and leaders who will shape how AI transforms our society, economy, and institutions for generations to come.

AI4ALL's corporate partners:

- Advance ethical and responsible AI
- Expand access and opportunity in AI
- Develop the next generation of AI leaders
- Elevate thought leadership and meaningful employee engagement
- Create lasting social impact through strategic philanthropy

More than a sponsorship, an AI4ALL partnership is an opportunity to help shape the future of artificial intelligence through collaboration, innovation, and shared purpose.

Together, we can build a future where artificial intelligence reflects humanity and is used for human good.
